

We are having a GIRL! Our sweet girl is due December right around Christmas. She is perfectly healthy and growing strong. We are blessed to have received so much generosity from those around us who have been helping us prepare for her arrival.

This past month we have been enrolled in El Puente or The Bridge which is a program that is designed to bridge together the three campuses here in YWAM San Diego/ Baja and make the new full volunteers feel welcomed and connected. On Wednesday September 9th we completed the program and are looking forward to working in Ensenada full time! We learned a lot about the heart behind the ministries we will be working with and also about what is expected of the leaders in this community. We are excited to be putting down some roots here and preparing to raise our growing family in Ensenada while being committed to serving in YWAM.

Ministry

Food Distribution: every week we are going out and feeding people who have lost their jobs or have not been able to work due to COVID-19

Discipleship Training School (DTS): 16 students from 4 countries are arriving September 18th to take part in DTS! They will be focusing on knowing God in a deeper more real way and then going out and making Him known in all the world.

Homes of Hope (HOH): we are building homes again! Even though we can't have teams from the states joining us yet, those of us who live locally are coming together and completing some of the houses that have already been fully funded!

Rehab Center: Something that has been on our hearts for a while now is to start doing weekly ministry at the men's rehab center in the area. This is the same rehab center that Hano was enrolled in as a teenager. We don't have permission to enter the facility yet but we are preparing short messages and bible studies to do with the men there once we are allowed in.

Prayer Requests

Ashley: Ashley, is in the hospital removing from 2nd and 3rd degree burns that are covering 45% of her body. She was caught in an explosion caused by a gas leak. She is being visited by a burn specialist from a hospital in Tijuana.

Asia and Maci: Their apartment exploded due to a gas leak. They lost almost all of their belongings. They are also involved in a lawsuit as the owner of the building tries to get to the bottom of what caused the explosion. Pray for grace in the situation, the laws are very different in Mexico.

Ronnie and Jamie: friends of ours recently lost their son Orion after a difficult pregnancy.

Although things have been challenging recently a friend of our encouraged us the other day saying, "you guys must be doing something good down there because the devil is trying to stop it."

We may not be working at the same pace or doing the same things as we used to but what we are doing is for the glory of God. We will never stop thanking God for the opportunity that we have to live every day listening to His voice and being the hands and feet that establish His kingdom here in Ensenada as it is in heaven.
